

**CONCORD MUNICIPAL LIGHT PLANT
ELECTRIC RATE SCHEDULES**

**RATE GS DHW
GENERAL SERVICE - OFF PEAK WATER HEATING**

Mass DPU No. 300

Effective: January 1, 2011

Replaces Mass DPU No. 267

The Concord Municipal Light Plant (the "**CMLP**") shall charge and collect for non-residential controlled water heating service on the basis of this rate schedule. The Purchased Power Cost Adjustment Clause and the CMLP Rules and Regulations are incorporated by reference as a part of this rate schedule.

Availability

This rate schedule is available throughout the entire territory served by the CMLP Electric System (the "**CMLP System**"). Service under this rate schedule will be available for a minimum of 18 hours each day.

Applicability

This rate schedule is applicable to all electric service required by the Customer for separately metered water heating devices where such devices can be controlled or limited by the CMLP during certain hours of the day, at CMLP's sole discretion, in an effort to limit the power requirements imposed on the CMLP System during peak load periods.

Character of Service

Service under this rate schedule shall be alternating current, 60 Hertz, single phase, at CMLP's option of the standard voltages available from the CMLP System. The CMLP may, at its option, require three-phase service. Standby or resale service is not permitted under this rate schedule.

Monthly Rate

Energy Rate	\$0.05500 per kWh
-------------	-------------------

The above rate per kilowatt-hour will be adjusted plus or minus in accordance with the formulae specified in the Purchased Power Cost Adjustment Clause. The amount computed at the Monthly Rate shall be subject to taxes, assessments or surcharges imposed by any governmental authority which is assessed on the basis of revenues from electric service or volumes of electricity purchased or sold by the CMLP.

Terms

The Monthly Rates are net and bills are due on presentation. Bills will be rendered either monthly or bi-monthly, at the sole discretion of the CMLP. When bills are rendered bi-monthly the Meter Charge and the number of kilowatt-hours in each Energy Rate block will be multiplied by two (2).

Effective Date

This rate schedule is effective for all consumption on or after the effective date shown above.

Interruption of Service

The CMLP will make reasonable provisions to assure satisfactory and continuous service, but does not guarantee a continuous supply of electric power and energy from the CMLP System facilities and shall not be liable for damage occasioned by interruptions of service or failure to commence delivery caused by acts of God, or the public enemy, or for any cause reasonably beyond the control of the CMLP, including, but not limited to, the failure or breakdown of facilities, floods, fire, strikes, or actions or orders of any agency having jurisdiction in the premises, or for interruptions which are necessary for inspection, repair, or changes in the equipment and facilities of the CMLP or the bulk power supplier(s) to the CMLP System.

The Customer shall notify the CMLP immediately of any defects, troubles or accident which may in any way affect the delivery of electric service by the CMLP from the CMLP System.

Term of Contract

Service under this rate schedule is subject to termination at any time upon the CMLP's receipt of written notice from the Customer, subject to the provisions of the Rules and Regulations for Electric Service.
