Markey & Rubin  
P.O. Box 957  
Acton MA 01720

**RE: Lot 2a Keuka Rd, Concord, MA**

On 5/12/21, this office received plans dated 5/06/21, which illustrates the onsite wastewater system proposed for the above-referenced property. This plan was reviewed to determine whether the proposed system complies with Title 5 of the State Environmental Code, 310 CMR 15.000, and Concord Board of Health Regulation, CBHR 3.00, *Wastewater Management*.

For the reasons that are listed below, the office of the Board of Health is unable to approve these plans and must disapprove the application for a permit:

1. Provide elevations of test holes per 310 CMR 15.220.
2. A Title 5 building review is required for this project. Complete the attached application and submit with a floor plan of the proposed building.
