

Climate-Friendly Homes and Vehicles

Monday, September 13th • 7:00PM – 8:30PM
Harvey Wheeler Community Center, 1276 Main St.

Home Heating & Cooling

Advanced heat pumps are now a comfortable, cost effective, environmentally friendly way to heat and cool many homes in New England.

Passenger Cars

Long-range plug-in electric cars are now offered as affordable models for every family's needs, cutting the cost of car ownership and slashing carbon emissions.
